# About Peninsula Farms

A Bahraini hydroponic and dairy farm that specializes in providing fresh, delicious, healthy nutritious products for the Bahrain market. "Peninsula farms were set up to grow fresh food for the people of Bahrain. We're growing local food for local people."

# Company History

Since 2014

Peninsula farms was founded in the year 2014 and is the 1st dairy farm in the kingdom of Bahrain with its General Manager Sheikh Rashid Khalifa Al Khalifa and our operations Manager Shri Parmaissur.

We are currently operating in two fields: Our hydroponic farms provides fresh locally grown vegetables. While our technologically advanced goat farm produces goat milk, cheese, as well as soap created from goat milk.

---

# Our objective

to contribute to the development of the agricultural sector in Bahrain as well as aiding the country to achieve its goal to be self-sustainable in terms of local fresh produce.

We aim to limit the import of fresh produce by providing local produce that is of high quality and is competitively priced when compared to imported produce in the market.

Peninsula Farms is in abidance with different International standards set by the ISO as well as approved and closely monitored by the Ministry of Works, Municipalities Affairs and Urban Planning Agricultural affairs department. To ensure the highest standards are met.

---
