---

Company Profile

## Our Purpose

---

To simplify the commercial movement of the gold market through technology by modern, reliable, safe and simple innovations that will serve the consumer community.

## Our **Vision**

---

To become the world's leading company in the precious metals digital market and bring together the companies emerging from the precious metals field under one roof through technology.

## Our **Mission**

---

To merge the precious metals industry with the technology revolution as it will contribute to advancing progress and benefit the investors and precious metals consumers.

# Arihant's Projects

# GoldMine

---

Gold Mine is an interactive Audio-Visual kiosk to dispense Gold, Silver investment collectibles specifically coins, bars of various denominations.

It is a secured, tech-driven, robust, automatic machine with dynamic Gold pricing (non-static) to give easy-purchase access for non-GST Bullion products with intuitive graphics and voice-enabled instructions.

These kiosks will be placed at strategic spots across the city like Airport terminals, Shopping malls, Convention Centers, Tourist locations in Singapore and Bahrain to further boost their image as Future Perfect FinTech & Bullion Hub and Kingdom of Gold respectively.
