# ***INNOVATION & SUSTAINABILITY***

## ***VISION***

A sustainable future where innovative water technologies empower communities towards water independence and security.

## ***MISSION***

At Estedara, we provide expert consultation in cutting-edge water solutions. We are dedicated to transforming the water landscape, ensuring every community thrives through sustainable practices.

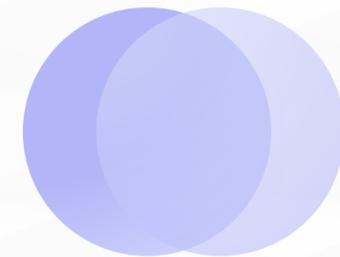

**VISIONARY**

**SUSTAINABILITY**

**AGILITY**

**SYNERGY**

## COMMITMENT TO OUR CLIENTS

### EFFICIENCY

High water generation + low power requirement achieving low cost per liter.

### DEDICATED SUPPORT

Immersive involvement in every project.

### SUSTAINABLE MINDSET

Minimal waste with low environmental extraction impact.

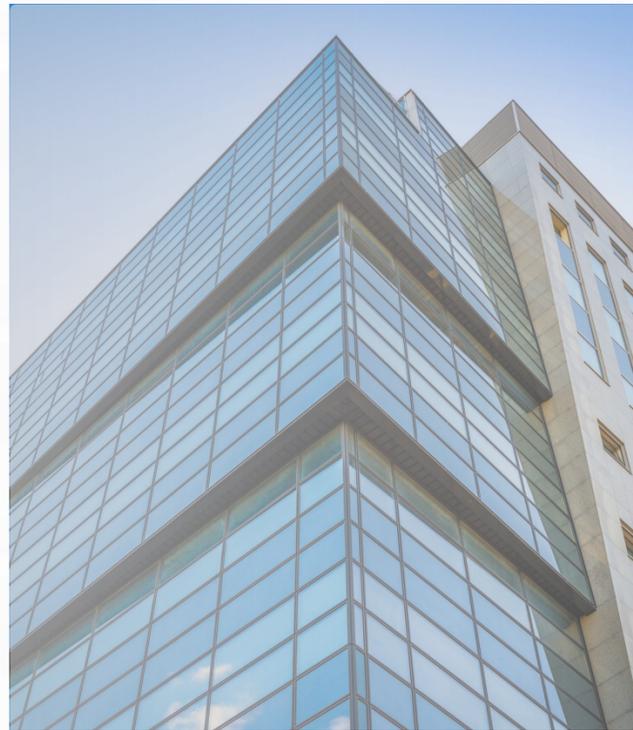

## OUR COMMITMENT TO THE WORLD

# THE INDUSTRIES WE SERVE

We prioritize your requirements—ensuring our solutions align with your industry demands and budget.

## **Corporates**

*Sustainable alternative to plastic bottles; offering clean, cold, mineralized water on demand.*

## **Hospitality**

*Consistent, high-quality water for hotels and guest facilities.*

## **Industrial**

*High-capacity water solutions for remote and demanding work sites.*

## **Humanitarian**

*Portable units for safe water access in locations with limited water access.*

# OUR SERVICES

## WATER MANAGEMENT CONSULTATION

Thorough water inspections and assessments to determine best water strategies for your needs.

## SUSTAINABLE WATER TECHNOLOGIES

Implementing technologies that are cutting-edge, efficient, and sustainable.

## TAILORED WATER BOTTLING SOLUTIONS

Tailored bottling processes to meet industry standards and client specifications.

## *Our Services*

# ***WATER MANAGEMENT CONSULTATION***

We deliver expert water consultation services focused on assessing the efficiency and sustainability of existing technologies, alongside their long-term financial implications. For clients without systems, we conduct site inspections to identify water needs and offer sustainable solutions.

*Our Services*

# **SUSTAINABLE WATER TECHNOLOGIES**

At Estedara, we provide innovative and sustainable water technologies tailored to meet the unique needs of our clients—ranging from 50 liters per day up to 10 million liters per day.

**50Ltrs**

**60,000Ltrs**

**10,000,000Ltrs**

**AIR-TO-WATER  
TECH.**

**PATENTED  
DESALINATION TECH.**

**EU CERTIFIED  
PRODUCTION**

**HIGHEST  
EFFICIENCY  
GLOBALLY**

**CLIMATE  
CHAMBER  
TESTED**

**REMOTE  
MONITORING  
(IOT)**

**WHO STANDARD  
MOH APPROVAL**

**REGIONAL  
SUPPORT**

# ATMOSPHERIC WATER GEN.

Air to Water Technology with water generation capacity ranging from **50 Ltrs - 60,000 Ltrs Daily**

## SMART TECH

By replicating the natural water cycle, our technology delivers eco-friendly hydration, 24/7

## 7-STEP FILTRATION

Transforming air to drinkable mineral-infused water

## CERTIFIED

- ISO 9001 Certified
- WHO Standard
- MOH Approved

## CLIMATE-CHAMBER

Tested in Climate Chamber mimicking Bahrain weather

# DESALINATION GEN.

Sustainable desalination technology with water generation capacity ranging from **1-Mil Ltrs to 10-Mil Ltrs Daily**

## PATENTED TECHNOLOGY

This system features a closed-loop design and innovative membrane filtration capabilities.

## SUSTAINABLE IMPACT

Closed loop design minimises waste while the ZLD component enables users to opt for Ocean Safe Brine.

## RENEWABLE ENERGY

Renewably powered offering 24/7 operation through solar or waste heat energy.

## *Our Services*

# ***TAILORED WATER BOTTLING SOLUTIONS***

Comprehensive, scalable water bottling solutions aimed at reducing reliance on external bottled water:

- ✓ *Scalable facilities producing over 10,000 bottles per day*
- ✓ *Rinsing capabilities to promote sustainable reuse of glass bottles*
- ✓ *Integrated labeling systems offering clients branded solutions*

*Join the Green-Wave*

# *Sustainability Starts Here;*
