# WELCOME TO LITTLE MIRACLES!

**FAMILY:** Creating your own family story. Capture the family love as your children grow and change yet connected to their own story for many years to come!

## POPULAR SESSIONS

**MATERNITY:** Those fond memories of motherhood begin with the beautiful baby bump. For the perfect maternity session, we recommend scheduling during your seventh month (30-36 weeks).

**NEWBORN:** Congratulations! Welcoming your newborn into the world will be one of the most miraculous events in your life. Because this magical stage of life passes in the blink of an eye, newborn portraits are captured during the first two weeks of life while your little one is extremely squishy, sleepy and curly.

**SITTER:** A special stage to capture the celebration of your little one learning to sit up as it won't be long before they are running around! Portraits at this stage capture the beginnings of those dynamic personalities that will be with you forever.

**CAKE SMASH:** As the first birthday is a greatly anticipated milestone in every family, Little Miracles creates a first birthday session like no other! Add in a beautiful birthday cake for baby to dive into by Zeeba's kitchen as our gift to you!

## TO BOOK

1. Check availability from website or contact the studio.
2. Complete and submit your questionnaire, contract and session fee.
3. Pre-Session consultation - go over all the details.

## DURING

**Newborn:** Feed your baby just before you arrive and we will follow your baby's lead.  
**Cake smash:** Birthday little miracles come as you are and we will take care of the rest! It always helps to bring a change of clothes for all :)

## PHOTOS READY!

Your photos will be ready for viewing via a personal online gallery on the deadline date. We are happy to offer customer canvases, albums, wall art and more so you can treasure your little miracles daily!

## Tip

*To guarantee your session please book 2 months in advance of your due date or birthday.*
