# STRATEGIC POSITIONING

BRET leverages advanced refrigeration manufacturing technologies and Bahrain's strategic location to serve both GCC and global markets. This synergy enables the delivery of high-performance systems while fostering regional industrial growth and international competitiveness.

# PRODUCTS

- Ultra-low temperature freezers
- Fresh-keeping cabinets
- Hanging meat cabinets
- Display cabinets
- Beverage coolers

**BRET**

## MISSION

To localize high-quality refrigeration manufacturing in Bahrain, deliver energy-efficient products tailored to regional climates, and empower the Bahraini workforce through industrial innovation and phased global expansion.

## STRATEGIC IMPACT

BRET aligns with Bahrain Vision 2030 by reducing import dependency, creating skilled jobs, and positioning Bahrain as a regional hub for refrigeration technology.

## ABOUT US

BRET is a Bahrain-based industrial venture dedicated to manufacturing advanced refrigeration equipment tailored to the Middle East's climate and commercial needs. Headquartered in Bahrain International Investment Park (BIIP), BRET integrates advanced refrigeration manufacturing technologies with local operational leadership to deliver high-performance, energy-efficient cooling solutions across retail, hospitality, healthcare, and food service sectors.

Our factory will produce a diversified portfolio of refrigeration units—from ultra-low temperature freezers to fresh-keeping cabinets and display coolers—engineered for durability, hygiene, and compliance with international standards. With a phased investment strategy and strong shareholder backing, BRET is positioned to become a regional leader in refrigeration manufacturing, driving job creation, technology transfer, and industrial innovation in alignment with Bahrain Vision 2030.
