MORE

Our custom design creates more than open space! It grants freedom to move and a room to breathe. Providing pantries, T.V. units, accessories and living rooms, The Closets customizes your home to the one in mind.

FACTORY & PRODUCTION FACILITY

FACTORY:

Located in Askar, The Closets state of the art production facility provides automated panel processing on a massive scale. The automated process provides capacity to manufacture of over 70,000 kitchen units per year on a single shift.

PRODUCTION FACILITY:

The Closets manufactures kitchens, bedrooms and bathroom furniture elements from pre-finished sheet material, with in-house capability to cut, edge, bore, insert and assemble carcass components, as well as that doors (frontals / fascia's) can be manufactured in-house or in some cases due to specialist finishes these are bought in from specialist suppliers.

AREA OF EXPERTISE

Our experience in the contract and retail furniture industry allows us to couple mass production with bespoke design and assembly to meet the specific need of our customer's on project by project basis.

By having an in depth and up to the minute knowledge of latest trends and finishing styles within the market and combine from different internationally known specialists in decors and fascias to provide modern and contemporary furniture at the most competitive rates.

Our suppliers are capable of handling huge quantities and guarantee timely deliveries We have advantage of more competitive pricing due to economies of scale.

IN-HOUSE CAPABILITY

The Closets International adopts state of the art production facility that provides automated panel processing on a massive scale. The automated process provides capacity to manufacture of over 70,000 kitchen units per annum on a single shift.

MACHINERY

Our manufacturing unit is highly equipped with most advance machinery such as (SCHELLING FH4, HOMAG - BRANDT, SCM CNC, CPC PACKAGING LINE, SCM AUTOMATIC CABIENT ASSEMBLY CLAMPS and SCM DRILLING MACHINE: CYFLEX HP), all backed by experienced craftsmen, designers and artisans, our wide array of products undergoes stringent quality tests conforming to International quality standards.

We are committed to reach the zenith by ensuring total quality management right from selection of the raw materials to final dispatch of the manufactured products.

TECHNOLOGY

ERP System:

The Closets has adopted the ERP System within the organization, in order to provide an integrated view of core business processes, often in real-time, using common databases maintained by a database management system. The ERP system would track materials resources, cash, raw materials, production capacity, and the status of procession, etc.

CAD + T :

In order to give the customer the ultimate satisfaction in creating their dream design, the Computer-aided drafting (CAD) has been adopted to aid in the creation, modification, analysis, or optimization of the designs.

CAD :

software is used to increase the productivity of the designing team, improve the quality of design, improve communications through documentation, and to create a database for manufacturing.
