- NS provides distinguished design for sophisticated women and man we do this by using high-quality genuine handmade leather create chic footwear, handmade, clutches, laptops bags, wallets and belts.
- We also specialize in making fur and leather jackets and designer out fit.
- Our footwear and hand bags are specifically designed to be lightweight and comfortable. Comfort was particularly important to me after a bad car accident, as none of shoes I could find fit me properly without complaining fashion. I decided to design my own. And combined both fashion and comfort for shoes and handbags.
